

## ALUMINIUM SERVICE DOOR FRAMES

Our range of service doors type A, smooth profile are installed without any externally visible screw fixings, they are installed by Sikaflex bonding (see page 101) of the frame to the aperture and the addition of some internal safety screws. They are manufactured from silver anodised Aluminium extrusions for long term visual appearance and strength.

When ordering service doors choose suitable lock or locks from the lock range based on recommended 'NOL' number of locks Shown in size table in price list. We do not supply service doors ready assembled with panel, we only supply frames as shown.

SHOWN WITHOUT LOCK OR PANEL FITTED

## THETFORD SERVICE DOORS

The range now covers four sizes. Easy to install, can be fitted either vertically or horizontally, in the outside wall of the body. A step by step installation manual is provided together with a template for cutting the wall and door centre core panel. The section of wall cut out to fit frame is trimmed down and fitted into centre of door. This ensures door centre panel matches any body colour styling. Add colour

code to end of code.

### SINGLE KEY SYSTEM WITH NEW LOCK

For ease of use and to prevent a huge bunch of keys our new lock system allows certain products to have the lock barrel installed afterwards. This enables a set of matching locks to be purchased and installed in a range of filler caps and service door locks. All will therefore be able to be opened with the same key. Items marked requires lock detailed below and in other parts of the catalogue (Easy Fill on page 19) allow the installation of matching key number lock cylinders. Where products are marked with lock & two keys these key numbers are random and cannot be supplied matching.

### LOCKS FOR SERVICE DOORS

To suit various styles and installation needs, the most popular service door lock is the **LDL1036**, due to its neat and simple operation and reliability in use. On unlocking **LDL1036** the knob pops out, rotate this to move pawl on rear to unlock & lock, then line up knob with base and push in until it clicks to lock. **LDL1035, 1047, 1100, 1105 & 1109** use turning of the key to rotate lock pawl on rear.

- LDL1035N** 1035 BARREL LOCK 32MM CHROME BODY REQUIRES LOCK (A)
- LDL1041CVK** BLACK COVER CAP & LOOP FOR 1035 & 1047 LOCKS (B)
- LDL1036RL** 1036 BLACK DOOR LOCK REQUIRES LOCK
- LDL1036L** 1036 BLACK DOOR LOCK WITH LOCK & 2 KEYS. (C)
- LDL1047** 1047 BARREL LOCK 38MM CHROME BODY REQUIRES LOCK (D)
- LDL1105W** MOON WHITE DOOR HANDLE LOCK LEFT REQUIRES LOCK (F)
- LDL1109W** MOON WHITE DOOR HANDLE LOCK RIGHT REQUIRES LOCK (G)
- LDLNK1** NEW LOCK 1 X LOCK & PAIR OF KEYS RANDOM NUMBERS (H)

### NEW MATCHING LOCK KITS

With the new lock kits order as many sets of locks at the same time as you need to complete the job. We will pick a 4 digit key number and this will show on your invoice instead of the stars. When you need to order extra matching locks in the future quote this key number in place of the 4 stars at the end of the lock set code.

- LDLNK4\*\*\*\*** NEW LOCK KIT 4 X LOCK & 2 X KEYS TO KEY NUMBER
- LDL1042NKB** KEY BLANK FOR NEW LOCK SYSTEM

- DC1087** BALL TYPE DOOR RETAINER CATCH (1 SET)
- DC1088** 10MM SPACER BLOCK FOR DC1087

### HEOSAFE SECURITY CAB DOOR LOCKS

Many Motorhome and Caravan owners do not feel that the standard vertical locks are adequate protection against illegal entry. Many owners attempt to overcome the feeling by installing a range of various options from drilling and bolting in 'eyebolts, straps and chain' to Cutting holes and fitting 'dead locks/bolts'.

The HEOSafe however, has been designed by Oskar Kubesch to increase the safety of the vehicle and it's occupants against illegal entry whilst also removing the need for drilling and cutting holes into doors. The lock is mounted by using the existing fixings of the manufacturer and is very simple and easy to use.

The characteristics of the HEOSafe door lock are: Maintenance free; Quick and Easy to fit and use; No additional drilling or screwing required (excl. x250, Movano & Ford Transit door lock additional drilling and screwing required) & 3 year guarantee Standard Kit weight 2.00kg (delivered as a pair, left door and right door)

- HSL1246** Heosafe Fiat Ducato 230 Boxer Relay (1994-2002) standard
- HSL1256** Heosafe Fiat Ducato 230 Boxer Relay (1994-2002) lockable
